Additional Recommendations

• **Make WhatsApp the main conversion tool.** Many customers will prefer sending a WhatsApp message instead of completing a long form.

• **Use actual JsCreatives projects.** Branded merchandise, notebooks, reflective jackets, bags, T-shirts and other completed orders should be the main selling point.

• **Build an expandable website.** Start with enquiries and quotations, then introduce online payments and order tracking as the business grows.

The website should make JsCreatives look like a serious, established branding company capable of handling both a single customized T-shirt order and a large corporate branding contract.
